

Tangerine Road Corridor Project

Traffic Safety Management Meeting

August 26, 2016

Project Limits:

Current Traffic Changes / Impacts:

Tangerine Road: From Dove Mountain to La Canada, East and westbound travel lanes will be reduced to 11-foot lanes with a 3-foot paved shoulder where possible. Temporary Traffic Control Devices and/or Temporary Concrete Barrier (TCB) will be placed between the construction area and the travel lanes. Roadside opposite of the Traffic Control Devices will have a graded shoulder with a slope no greater than 4:1 (Recoverable Slope) to allow traffic to pull off the roadway for emergencies.

Twin Peaks Road / Dove Mountain Boulevard: Beginning Sept 2016, northbound and southbound travel lanes will be reduced to 1 lane in each direction, and shifted to the east side of the existing raised median approximately 500 feet north and south of Tangerine Road. A dedicated left turn lane will be provided for each direction at the intersection of Twin Peaks and Tangerine Roads.

Thornydale Road: Northbound and Southbound travel lanes will be reduced to 1 lane in each direction. A dedicated left turn lane will be provided for each direction at the intersection of Thornydale Rd and Tangerine Road. Right turn lanes will be provided in directions that are possible.

***Additional information will be provided via traffic alerts and the project website (tangerineroad.info) for subsequent traffic changes.

Schedule Overview:

Phase 1-A

Sept 2016 – Spring 2017

- Reconstruct intersection of Tangerine and Twin Peaks
- Build new EB travel lanes from Twin Peaks to Camino de Oeste

Fall 2016 – Spring 2017

- Build new EB travel lanes from Camino de Oeste to Thornydale

Spring 2017 – Winter 2017

- Build new WB travel lanes from Twin Peaks to Camino de Oeste

Spring 2017 – Winter 2017

- Build new WB travel lanes from Camino de Oeste to Thornydale

Spring 2017 – Winter 2017

- Reconstruct intersection of Tangerine and Thornydale

Phase 1-B

Fall 2016 – Spring 2017

- Wet and Dry utility relocations from Thornydale to La Cañada

Spring 2017 – Summer 2017

- Build new WB travel lanes from Thornydale to La Cañada

Winter 2017 – Summer 2018

- Build new EB travel lanes from Thornydale to La Cañada
